Who is Facilitating the Leap Year Mastermind Group?

Hi, I'm Karyn Greenstreet, a small business coach and self-employment expert. I've been a business owner for 32 years and I'll be facilitating all the Leap Year groups.

I've been running mastermind groups since 1994, and I wrote the book, "How To Create and Run a Mastermind Group." I'm also the owner of The Success Alliance website.

What are meetings like? What happens in a meeting?

This is not a curriculum-based program or a class.

In meetings, you bring to the group the challenges you're facing, the decisions you need to make, the ideas you want to brainstorm around. You bring what's most important to you and you're not limited to an artificial structure of pre-set topics for discussion.

Respect and Trust...

I really have great respect for each member of our group. Knowing when we bring something up we will get honest, thoughtful, and insightful answers is wonderful — whether it is getting called on crap, a great suggestion, or some rah-rah support.

In most cases there are great lessons for me in just listening to and pondering the others' concerns and thoughts.

I like rubbing elbows with small business owners who are intelligent, motivated, and can understand what it is like to have your own business. I like this group in particular because I always trust that their opinions and comments will come from an honest, constructive, and loving place.

Sometimes just a little thing that was said can make a big difference in helping me to initiate change or get a better understanding of myself.

Priceless Support and Brainstorming...

What a difference your mastermind group has made in my life, both personally and professionally! Being a part of such a wonderfully warm and supportive group of other self-employed people has been priceless.

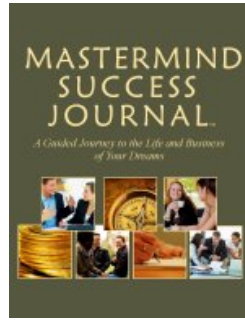

Bonuses!

Mastermind Success Journal ebook: This will be your central resource for taking notes from the meetings, creating action plans, mind maps, and keeping inspired and motivated.

I designed the Mastermind Success Journal based on my many years of facilitating mastermind groups. Download and use this Mastermind Success Journal throughout our time together in the mastermind group, and for year afterwards!

Private Message Forum: Each mastermind group will have access to a private online message forum, so that you can continue your group discussions and brainstorming with the other members between phone calls.

Meeting Conference Call Recordings: A lot happens in a mastermind group meeting and sometimes you want to listen again to the calls. Each meeting will be recorded so you can re-listen to the calls and take detailed notes on the great ideas shared.

Knowing that there is a group of professionals who jump up and down when I have a success, or brainstorm a solution when I hit a brick wall, or who share resources when I have a question, or who help me sort things out when I feel overwhelmed, or who can relate when I just need to vent — these all mean so much to me. I am sure that I would not be as close to reaching so many of my goals without this group.

It's comforting to know there are others out there who have similar issues to mine and also are willing to share their resources and wisdom. I look forward to hearing of your future Leap Year mastermind groups.

Makes It All Easier...

We learn best by helping each other through things. No one has all the answers on their own.

The whole point is about support and the fact that it's very hard to do things totally on your own. It's a group of people who come together to support each other in what they most want to do. The mastermind group is a place where people are coming together who are willing, are available, and want that. It makes it easier to be curious, intuitive, inventive, and inspirational...it just makes it all easier.

The synergy catalyzes so much more than just sitting there by yourself.
